### **FINDINGS - EXHIBIT A SUB2013-00027 / COAL 13-0083**

#### *CEQA Exemption*

- A. The project qualifies for a Categorical Exemption (Class 5) pursuant to CEQA Guidelines Section 15305(a) because the proposed lot line adjustment is in an area with average slopes of less than 20%, does not result in any changes in land use or density, and is a minor lot line adjustment not resulting in the creation of any new parcels.

#### *Lot Line Adjustment*

- B. The proposed Lot Line Adjustment is consistent with the provisions of Section 21.02.030 of the Real Property Division Ordinance because it is an adjustment between four or fewer existing adjoining parcels, the adjustment will configure the parcels to more nearly equalize the parcels, and the resulting lot line adjustment is better than or equal to the existing situation relative to the County's zoning and building ordinances.

#### *Coastal Access*

- C. The proposed use is in conformity with the public access and recreation policies of Chapter 3 of the California Coastal Act, because the project is not adjacent to the coast and the project will not inhibit access to the coastal waters and recreation areas.
